Joint Statement

Two years of arbitrary detention of Kashmiri human rights defender Khurram Parvez

We, the undersigned organisations, call for the immediate and unconditional release of human rights defenders Khurram Parvez and Irfan Mehraj, who are currently being detained in Rohini jail in India. Khurram has been in pre-trial detention for two years now, on politically motivated charges under the Unlawful Activities Prevention Act (UAPA), an Indian counter-terror law that violates international human rights standards.

Irfan has been in pre-trial detention since March 2023, similarly on politically motivated charges. Indian authorities’ persecution of Khurram and Irfan is an emblematic part of their ongoing, systematic criminalization of civil society, and the defense of human rights, in Indian-administered Kashmir.

Khurram is the Coordinator of Jammu Kashmir Coalition of Civil Society (JKCCS) and presently the Deputy Secretary-General of the International Federation for Human Rights (FIDH). He has, for years, documented human rights violations in Indian-administered Kashmir, including enforced disappearances and unlawful killings. He was awarded the 2022 Martin Ennals Award for his tireless human rights work.

His outstanding human rights work has been met with Indian authorities’ unrelenting repression. Khurram was arrested on 22 November 2021 by the National Investigation Agency (NIA), India’s counter-terrorism agency, on various trumped-up charges including “waging, or attempting to wage war, or abetting waging of war, against the Government of India,” “punishment for conspiracy to wage war against the Government of India,” “raising funds for terror activities,” “punishment for conspiracy,” and other provisions of the UAPA and the Indian Penal Code. He was arrested after raids and seizures conducted at his office and home by the NIA on 21 November 2021.

In March 2023, Khurram was arrested again in another case registered in 2020 by the Indian authorities on fabricated charges of “terror financing” along with independent journalist Irfan Mehraj, who was formerly associated with JKCCS. The NIA filed a charge-sheet against Khurram and Irfan in this case on 15 September 2023.

Khurram had previously faced targeted reprisals from the Indian authorities for defending human rights in Kashmir. In September 2016, he was prevented from travelling to Switzerland to attend the United Nations (UN) Human Rights Council and later was arrested under the Jammu & Kashmir Public Safety Act and arbitrarily detained in prison for 76 days.

The UAPA, has been increasingly abused by Indian authorities to bring politically motivated charges against human rights defenders. UN experts in May 2020 expressed their concerns about various provisions of the UAPA and its non-conformity with international human rights
laws and standards. The experts noted that provisions in the UAPA such as the powers to
detain a person for up to 180 days “without providing any evidence” were particularly
problematic and highlighted Section 43 D (5) of the UAPA, which makes it “highly unlikely” for a
person arrested under this law to be released on bail.

On 31 October 2023, UN experts again raised concerns about the UAPA, stating that the pre-
trial detention period of 180 days, which can subsequently be increased, is beyond reasonable
and called for a review of the UAPA in line with international human rights standards and with
recommendations made by the Financial Action Task Force (FATF).

The UN Working Group on Arbitrary Detention (WGAD) in its opinion published in June 2023,
said that Khurram's detention was “arbitrary” and called on the Indian authorities to immediately
release him.

The reprisals and judicial harassment against Khurram are occurring within a larger context of
systematic, longstanding, grave human rights violations by Indian authorities in Indian-
administered Kashmir and impunity for those violations. Since the abrogation of Article 370 of
the Indian Constitution in August 2019, Indian authorities have forcibly closed the already highly
restricted civic space in the region. Journalists continue to face targeted harassment including
arrests, travel bans, and passport suspensions for their reporting. Access to information is
severely restricted through arbitrary internet shutdowns.

Our organisations call on the Indian authorities to immediately and unconditionally release
Khurram Parvez and Irfan Mehraj, to drop all charges against them, and to end all kind of
harassment against all Kashmiri human rights defenders and civil society organisations. India
must also amend the UAPA to bring it in conformity with international human rights laws and
standards, end the criminalisation of human rights defenders and journalists; and ensure
accountability for human rights violations committed by Indian forces in Indian-administered
Kashmir.

We also call upon the Indian authorities to immediately comply with their international legal
obligations, by allowing civil society to freely operate in Indian-administered Kashmir and India,
and by ceasing their longstanding obstruction of international civil society and inter-
governmental organisations, including the UN Special Rapporteurs and other human rights
mechanisms which should have unfettered access to Indian-administered Kashmir and Kashmiri
detainees.
